

INSTRUCTIONS

Fun Squid

You will need: paint, paint brush, hole punch, scissors, yarn, pens/pencils, glue, template, paper, (googly eyes)

Paint the toilet roll tube.

Cut the same number of lengths of yarn as the holes you punched. Colour and cut out the circle and curl into a cone and stick it to the top of the tube.

Fold each piece of yarn in half and poke through the holes to make loops, then thread the other ends through the loops and pull tight.

Cut out the eyes from the template or draw eyes directly onto the tube or stick googly eyes. Maybe you could make a fun squid family!
