

# INSTRUCTIONS

## Flying Dragon

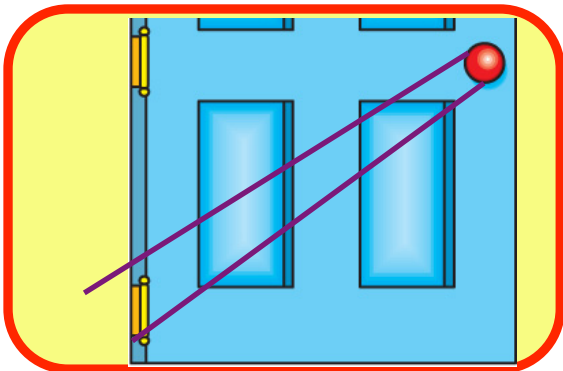

**You will need:** toilet roll tube, paper, yarn, scissors, pens/pencils, glue (optional: googly eyes, paint).

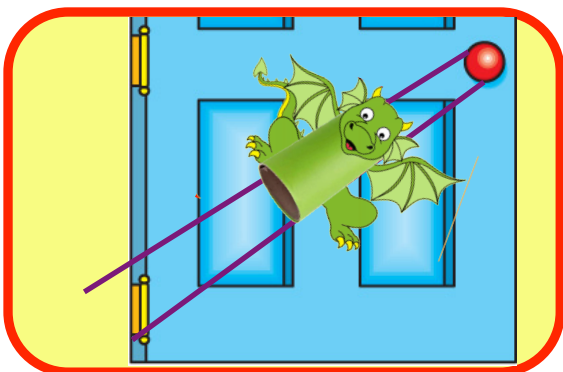

Paint the tube your dragon colour(s) of choice.

Cut and colour the wing, head and tail shapes. Stick the to the tube. Draw or stick eyes on. Let it dry completely before the next step.

Cut 4-5 metres of yarn and hand it over a doorknob so there's equal lengths on both sides.

Thread the loose ends of the yarn through the top of the tube so they stick out the bottom. Hold the ends separately and spread arms to make the dragon fly.
